

KBE/KJA - Parent and Booster Organizations

Parent and Booster organizations promote a positive relationship between school and community.

The Board of Directors will use the following criteria to determine if an organization will be sanctioned.

1. The organization must be managed and/or operated by adults.
2. The organization will be separate from school district student organizations and will provide details of the purpose and intended use of funds generated by the organization.
3. The organization must adhere to all school district policies and regulations, be in compliance with all state and federal laws, and adhere to applicable provisions of state and national organizations. (e.g., Maine Principals Association)

The sanctioning of any organization may be revoked if that organization's operations and purposes are not consistent with the policies and regulations adopted by the Board of Directors.

The principal or designee is responsible for maintaining communications with such organizations.

The Superintendent of Schools may develop appropriate regulations to implement this policy.
